- ◇ Respond silently to **electronic “hand raises”**
- ◇ View **thumbnails** of students’ screens in real-time
- ◇ Work alongside or remotely **take control of screens**
- ◇ Keep students on-task and apply **device usage policies**
- ◇ **Lock screens** to maximize attention and minimize distractions
- ◇ **Limit access** by **blacklisting** and **whitelisting** websites and apps
- ◇ Conduct **surveys and quizzes**
- ◇ Synchronize with Google Classroom

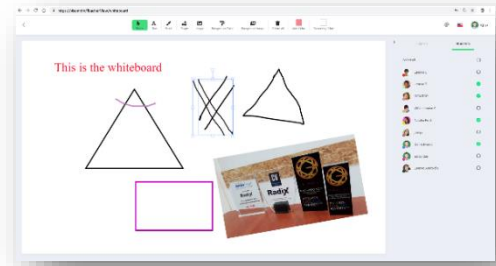

And much more!

Moonscape is a
Radix Authorized Solution Provider

Cloud-based virtual classroom

A cloud-based platform that is built to scale. Allow teachers to teach and students to learn remotely and have the same seamless experience of a traditional physical classroom environment.

- ◇ Share your screen, video camera and whiteboard in lecturer mode or group collaboration
- ◇ Virtually "walk" between all students and see their screens and faces in real-time
- ◇ Discretely assist students that need your help
- ◇ Respond to hand raise
- ◇ Engage in a 1:1 video session with a student

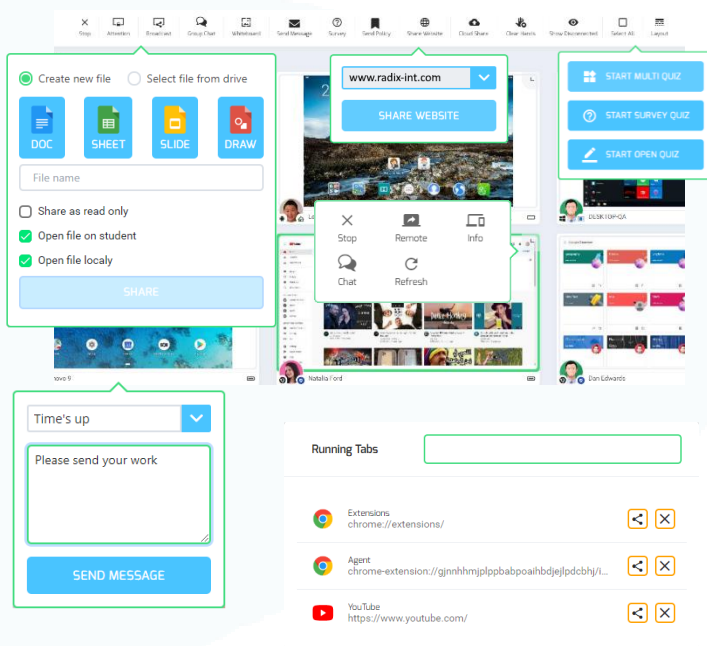

Built for collaboration and instruction

- ◇ Share screen between teacher and students
- ◇ Establish visual and vocal communication
- ◇ Bring one student's screen to the front
- ◇ Set and coordinate all devices on one platform
- ◇ Simultaneously launch apps and play, stop or skip videos for a synchronized experience
- ◇ Permit, block or lock certain apps
- ◇ Apply kiosk modes, policy and settings
- ◇ Share interactive virtual whiteboards, websites, surveys and quizzes
- ◇ Transfer and collect files simultaneously

Remote administration platform

Optional full MDM capabilities such as:

- ◇ Manage school-owned or BYOD devices
- ◇ Provide one-on-one remote assistance
- ◇ Distribute software and updates
- ◇ Set geofence perimeters and triggers
- ◇ Send messages and alerts to all devices
- ◇ Create asset and usages reports
- ◇ Create and enforce school policies

Take collaborative learning to the next level

With VISO TeacherView Classroom Management, teachers can easily manage their class's learning on school or BYOD devices, remote at home, local at school or hybrid classrooms. Teachers can monitor student activities and evaluate performance in real-time, share any screen, provide individual or group assistance and implement collaborative learning methodologies.
